Crime-lite® 82

A complete range of high intensity LED light sources for crime scene investigation and forensic laboratory examination

- The highest output handheld forensic light source in its class
- 16x high intensity LEDs provide unsurpassed shadow-free beam quality
- 100% light output, 100% of the time regardless of battery drain

Engineered to meet the needs of the forensic examiner the Crime-lite® 82 range includes ten high intensity light sources from UV to IR.

foster + freeman

Crime-lite® 82

FOR CRIME SCENE INVESTIGATION
AND LABORATORY EXAMINATION

Engineered to meet the needs of the forensic examiner the Crime-lite® 82 range includes ten models to suit a wide variety of evidence types.

With a demonstrably high quality of performance and construction the Crime-lite® 82 range stands head and shoulders above its competitors as the premium LED forensic light source.

Product features

- Fitted with 16 high power LEDs
- Constructed from anodised aluminium
- Angled compact heads for ease of use
- Lightweight, high capacity batteries
- Up to 750 minutes* of operating time on fully charged battery
- Battery charge time only 36 minutes

WHY CHOOSE CRIME-LITE®?

High quality of design and construction

LEDs selected for peak performance
and wavelength

100% light output regardless of
battery drain

Worldwide product support

High power to weight ratios

Compact and energy efficient

* Battery runtime dependent on illumination wavelength

Crime-lite® 82S

High intensity forensic light sources for the investigation of serious crime

Nine forensic light sources providing intense collimated, shadow-free light that maximises the clarity of evidence. The range includes UV, violet, blue, blue-green, green, orange, red and infrared for detecting blood, body fluids, drugs and fibres at the crime scene as well as for examining chemically treated fingerprints in the laboratory.

A white light model with variable intensity (10%, 30%, 50%, 100%) is also available for general search and is supplied with red, green and blue slide-on filters to enhance the contrast of evidence found on coloured backgrounds.

Crime-lite® 82S kits are supplied with a complete range of accessories including anti-glare viewing goggles and camera lens filters designed to provide maximum optical performance when used alongside high power light sources.

Output	10% band width	Peak
White	400-700nm	-
UV	350-380nm	365nm
Violet	395-425nm	410nm
Blue	420-470nm	445nm
Blue/Green	445-510nm	475nm
Green	480-560nm	520nm
Orange	570-610nm	590nm
Red	600-660nm	640nm
Infrared	800-900nm	860nm

LEDs	16 x high efficiency LEDs
LED Power Output	Up to 19W*
White LED Output	Up to 5280 Lumens
Runtime	Continuous with adaptor
Battery life	up to 750 minutes*
Charge time	22 minutes
Weight	560g

* Dependent on illumination wavelength

Crime-lite® 82L

A high intensity linear light source for illuminating shoe prints, fibres, blood spatter & particulate evidence

The Crime-lite® 82L is a new high intensity forensic light source that provides an alternative beam profile for locating evidence at the crime scene.

Sixteen LEDs are mounted behind a cylindrical lens to give a wide 'linear' light beam that is ideal for detecting surface debris and shoe prints in dust.

Accessories include red, green, blue and yellow clip-on filters to enhance contrast and a telescopic pole which adds convenience for prolonged floor searches.

Now Available in UV

Designed in response to customer requests, the Crime-lite 82L UV provides a wide linear beam of ultraviolet light to stimulate bright fluorescence from a wide range of materials of forensic interest.

Output	10% band width
White	400-700nm
UV	350-380nm

LEDs	16 x high efficiency LEDs
Runtime	Continuous with adaptor
Battery life	Up to 750 minutes
Charge time	22 minutes
Weight	900g

Crime-lite Kit Accesories

Included as standard in every cased kit

VIEWING GOGGLES & CAMERA LENS FILTERS

- anti-glare viewing goggles
- anti-glare 62mm camera filters (and filter pouch)
- UV safety glasses (if required)
- Dark adptation goggles
- Kits that include a white light source include blue, green, and red slide-on contrast filters.

CRIME-LITE® POWER KIT

- 2 x rechargeable batteries.
- fast battery charger.
- battery adaptor.
- battery pouch with shoulder strap.
- AC adaptor.

SCENE OF CRIME CASE

- Either a medium or large SOC case with machined foam cut-outs to accomodate all light sources in kit.
- two detachable belt clips and wrist lanyards.
- Crime-lite Eye Darkness Adaptation Checker

Crime-lite products are classified to EU safety standard EN62471:2008

Crime-lite® Camera Filters & Goggles

ANTI-GLARE CAMERA FILTERS AND VIEWING GOGGLES (INCLUDED IN CRIME-LITE 82S CASED SETS)

Crime-lite® 82S anti-glare camera filters and viewing goggles are essential accessories and are required for the examination of fluorescent evidence.

Foster + Freeman camera filters and viewing goggles are manufactured with Schott glass and feature an additional long-pass coating to suppress auto-fluorescent emissions from the filter glass, thus ensuring maximum optical performance with high power light sources

Crime-lite® Accessories

CRIME-LITE® 82S INFRARED ACCESSORIES

Evidence being examined under the Crime-lite IR (QCL/82S/IR) is visualised using the IR sensitive camera attachment with live video images being displayed on a PC monitor

5MP UV-Vis-IR multi-spectral camera QCL/82S/CAM[†]

For the visualisation of evidence under infrared illumination

- Attaches to Crime-lite 82S
- UV/Vis/IR filter wheel
- Includes image capture software

UV Reflectance Camera Filter QCL/243 *Not required for QCL/82S/CAM*

- 1% cut-off wavelength at 400nm
- 62mm filter glass

Tablet QCL/242 High specification tablet computer

ToughPad QCL/253 Ruggedized tablet computer for use at the crime scene

Laboratory Arm ² QCL/82S/025/IR

Hands free operation of Crime-lite 82S

- Bench or wall mounted, reach 132cm
- Internal power and USB cables

Tablet/ToughPad Mount QCL/241 Clamps QCL/242 or QCL/243 to Laboratory Arm

Scene of Crime Holding Frame ³ QCL/252 Holds Crime-lite 82S and ToughPad

Laboratory Cart QCL/245 Wheeled cart with mounting plate for Laboratory Arm and UPS storage space

Adjustable Laptop Mount QCL/247 For use with Laboratory Cart

UPS QCL/246 Run time 4 hours
