Forensic Science Innovation

VSC[®] 80*i*

for document examination

**Intelligent Touch Screen
Workstation for the
Examination of Travel
& Identity Documents**

Including:

**Passports, Visas, ID Cards, and
Drivers Licences etc.**

VSC[®]80*i* for document examination

Fast, Effective Examination of Travel & Identity Documents

Advanced forensic-level technology, simply controlled. The VSC[®]80*i* provides a complete solution to the comprehensive examination of secure travel and identity documents including passports, ID cards, visas, entry permits, and driving licences etc.

Ideal for high security, fast-paced environments including air, land and sea ports, immigration controls, and border crossing points etc. the VSC[®]80*i* re-writes the rulebook for high-level document examination by enabling the operator to interrogate documents with forensic precision via an intuitive touchscreen interface that improves processing speed and efficiency.

A fully integrated workstation, that does not require an additional PC, the VSC[®]80*i* builds upon the industry-leading VSC technology that is used by forensic document examination professionals worldwide to provide a powerful solution for the detection of counterfeit and altered documents.

Detect Fake and Counterfeit Documents

- Inspect documents under high magnification
- Authenticate passport & ID card security features
- Observe documents under UV-Vis-IR light sources
- Compare suspect against genuine documents

Forensic-Level Technology, Simply Operated

- Intuitive icon-driven software interface
- Semi-automated examinations
- 'One-Click' activation of examination routines
- Fully integrated system - No PC required

Four phases of document examination, originally published as part of the United Nations Office on Drugs and Crime Guide for the Development of Forensic Document Examination Capacity, 2010

VSC[®]80*i* intelligent software

Advanced Forensic-Level Technology. Simply Controlled

A new icon-driven software interface provides fast and intuitive access to all VSC[®]80*i* examination functions enabling users of varying ability to perform advanced forensic-level examinations

Accessible Icon-Driven Interface

Uncomplicated and instantly accessible, the VSC80*i* interface enables all levels of user to perform examinations with ease.

Reference Document Databases

Automatically detects the document type under examination and displays authentic reference images for comparison.

Automated Examinations

Customised automated imaging routines greatly increase the speed and efficiency of examinations.

VSC[®]80i specifications and accessories

VSC80i Core System Specifications

Imaging		Illumination		Essential Hardware	
Camera	High sensitivity CMOS camera Vis-IR sensitive Zoom lens Full HD live video output	Visible-IR LED Illumination	21x Multi-Angled LED Array Incident (flood) VIS/IR LEDs Twin Vis and IR Side LEDs	VSC Dimensions	W:392 x D:372 x H:366mm
Magnification	Up to x73 on 21.5" monitor	Specialist Illumination	Incident UV-A Coaxial Light Source	Power Supply	Input 110V/230V, 50/60Hz
				PC & Monitor	21.5" Touch Screen Display Fully integrated system No PC required

VSC80i FS		VSC80i M2		VSC80i M1	
Specialist Illumination	Incident UV-B, UV-C IR Anti-Stokes 10x LED Spotlight	Specialist Illumination	Incident UV-B, UV-C 4x LED Spotlight	Transmitted Illumination	Removeable light module UV-A, Vis and IR light sources
Filtration	13x Camera Filter Module	Filtration	6x Camera Filter Module		
Transmitted Illumination	Removeable light module UV-A, Vis and IR light sources	Transmitted Illumination	Removeable light module UV-A, Vis and IR light sources		

Optional Hardware Accessories

e-Passport Reader 1A
Order Ref: VSC/EREADER1/A
High performance MRZ and RFID data reader with contact/contactless capability.

e-Passport Reader 3
Order Ref: VSC/EREADER3
Compact RFID and CARD reader with CCID interface.

Intelligent Display Mounting Arm
Order Ref: VSC80/MOUNT
Easy to assemble adjustable mounting arm for the VSC80's 21.5" touchscreen display. Arm extends, retracts and tilts to change the operating angle of the display

Padded Carrying Case
Order Ref: VSC80/CC
Wheeled travel case with retractable handle.

DC to AC Power Adaptor
Order Ref: VSC80/12VDC
12V inverter to provide 120W AC mains voltage

Optional Software Accessories

Embedded Personal Data Decoder
VSC80/IP1
IPI (Invisible Personal Information) and ICI (Invisible Constant Image) to enable detection of IPI/ICI in passports and ID cards

Uses Scrambled Indicia[®] Technology supplied under licence from Graphic Security System Corp (GSSC) of the USA

LetterScreen++ Decoder
VSC80/LS/PLUS
LetterScreen++ detection and verification by special algorithm based on personal data in MRZ

Machine-Readable LetterScreen++[®] Technology supplied under licence from Jura, Hungary

Security Documents Database
Reference database of ID documents.
Archive Collection VSC/DB/Archive
Annual Subscription VSC/DB/KDATA

Banknotes Database
Reference database of banknotes.
Archive Collection VSC/DB/Archive/C
Annual Subscription VSC/DB/KDATA/C
